Resync AI

Complete Business, Legal & Growth Framework

Prepared for: **Daniel Noel Mcgarry**

Ownership: Daniel Noel Mcgarry 50% · Brooke Caroline Hunt 50%
Version 1.0 · 5 August 2026 · CONFIDENTIAL

Legal notice: This pack contains draft templates for planning and discussion. Have a qualified solicitor review all agreements before signing. Not legal or tax advice.

§1 Master index & guided procedure

Read documents in order: Disclaimer → Partnership (50/50) → Formalities → IP/Security → Vision → Business models → Profitability → 10-year roadmap → Developer modules → Growth/moat → Signature procedure.

Part	Topic
A	Governance & legal core
B	Strategy & economics
C	Product, engineering & scale
D	Partner executive package (personalized)

§2 Vision & community-driven SaaS

Resync AI is a self-healing workflow platform with template gallery, Stripe tiers, and exportable Next.js code. Retention comes from workflow libraries, credits, community templates, and PWA offline drafts.

§3 Partnership & 50/50 ownership

Daniel Noel Mcgarry and **Brooke Caroline Hunt** each hold **50%** beneficial ownership of Resync AI. Major Decisions require unanimous consent (sale, dilution, IP license, annual budget, etc.). Net Profit distributed 50/50 unless reinvestment is unanimously approved.

Full agreement text: see repository file `03-PARTNERSHIP-AND-OWNERSHIP-AGREEMENT.md` — sign after legal review.

Daniel Noel Mcgarry ______________________________ Date ______________________________

Brooke Caroline Hunt ______________________________ Date ______________________________

§4 Business formalities

- Incorporate entity; 50/50 share register
- Business bank with dual authorization
- Stripe, Supabase, domain in company name
- Privacy policy, terms, DPA for B2B
- Cyber insurance

§5 IP, trademarks & security

- Register word and logo marks (Resync AI)
- Proprietary codebase; CLA for contractors
- RLS multi-tenant isolation, webhook idempotency, CSP headers
- Signed PDFs stored in both partner folders

§6 Industry business models (2025–2026)

Subscription SaaS + usage credits + freemium community + land-and-expand seats + future marketplace take rate.

§7 Profitability — base case ARR (illustrative)

Y1 $240k Y2 $720k Y3 $1.8M Y5 $6M

At 25% EBITDA on Y3 base case ($1.8M ARR), distributable profit ≈ $450k → **$225k each** before tax and reinvestment votes.

§8 Ten-year scalability (summary)

Phase	Years	Focus
Foundation	0–2	PMF, builder, billing, community
Marketplace	2–4	Template revenue share, SOC2
Enterprise	4–6	SSO, VPC, SLAs
Platform	6–8	Public runtime API, OEM
Leadership	8–10	Vertical packs, global marks

§9 Developer modules & workflow

Next.js App Router · Supabase RLS · Stripe · OpenAI self-heal runtime · React Flow builder · codegen export · PWA. Quality gates: typecheck, Vitest, Playwright CI.

§10 Quality, growth & competitive moat

No dead-end product: every feature maps to roadmap phase and KPI. Monthly KPI review; quarterly roadmap; semi-annual compliance.

§11 Acknowledgment

I, **Daniel Noel Mcgarry**, acknowledge receipt of this Resync AI business and legal framework.
